

To comply with the Government and the New Zealand Dental Council's guidelines for Alert Level 2 we have had to make some changes to our normal way of doing things here at Taranaki Orthodontics.

You will be sent an online form via email the day before your appointment. Please complete this form as soon as possible, at least 3 hours prior to your appointment. Without this form we will have to reschedule your appointment.

We ask you to please follow the precautions below when you attend your upcoming appointment.

1. Please bring your own mask and glasses to your appointment. You should put on your mask before you enter the building.
2. Please wait in the car. It really is the safest way.
3. If possible any accompanying parents /people should wait in their cars. Please TXT the patient's name to 027 239 9028 once you arrive at the carpark. We will reply when we are ready to see you. Alternatively call 06 759 0123.
4. Your temperature will be taken in the reception area. Your refusal to have temperature taken will result in rescheduling your appointment until further notice.
5. Please wash your hands in the area provided prior to being seen in the clinic.
6. Maintain a 2 metre distance between yourself and other people at all times when in the practice unless directed otherwise by a staff member.

Some procedures deemed to be high risk may need to be rescheduled.

We will update you with any new guidelines as necessary.

We thank you all for your cooperation and for helping us to do our part in keeping you and your family safe.

Dr Betty and the team at Taranaki Orthodontics.
